Open Signal is a media arts center in Portland, Oregon. With a commitment to creativity, technology and social change, we make media production possible for everyone. opensignalpdx.org

Para información en español, visite el centro de difusión.
I was lucky to be invited into this community in January 2016.

For 35 years, Portland Community Media handed state-of-the-art media equipment, training and TV broadcast capabilities to thousands of average citizens for free or next to nothing.

In 2017, Portland Community Media transformed into Open Signal.

With new staff, new programs, a renovated facility and a new vision for community-driven media, we are building upon the important legacy of this well-loved institution, doing everything we’ve always done—and a lot more.

I have learned more in the past two years than I ever have before and Open Signal has grown faster than we ever imagined.

In the 2017 fiscal year, we more than tripled the number of community members we engaged over the previous year and we trained our producers to use more than four times as many pieces of media gear. We also secured the largest private grants in our history, setting us up to serve Portland for another 35 years.

And this is just the beginning. Please join Open Signal staff, producers, educators, students and neighbors as we build something totally unique in this area that is risk-taking, sustainable and endlessly relevant.

Gratefully,

Justen Harn, Executive Director
Open Signal’s mission is to empower our community to make effective use of media for creative expression, cultural exchange and civic participation.

We’re the largest community media center in the Pacific Northwest. Drop by to learn, to create, to collaborate and to be inspired.

Learn more at opensignalpdx.org

Cable Broadcast
+ Five cable channels airing local and independently produced content, reaching 400,000 homes in the Portland metro area

10,000-Square Foot Media Facility
+ Two media production studios with full green screen cyclorama; the larger studio is 2,000-square feet
+ A free media equipment library valued at over $650,000, including professional-grade cameras, lighting, microphones, iPads, MacBook Pro laptops with Adobe Creative Suite and more
+ Editing rooms, an animation station, an analog media lab and a voiceover room
+ StreamPDX, a mobile podcast studio in our parking lot

Education for Youth and Adults
+ Affordable beginner and advanced classes, covering camera and production studio operation, editing, animation, motion graphics and more
+ After-school programs and summer camps for youth
+ Future Forum, a 10-month media intensive for adults
+ Community education partnerships with schools and nonprofits

Community Engagement & Artist Support
+ Artist residencies
+ Community events, including an annual block party
+ Exhibitions, screenings and immersive media events
+ Open Signal Labs, an incubator for filmmakers of color

Professional Production Services
+ Hire our team to document and broadcast your event
Winter/Spring 2018 Program Listings

The theme for our Winter and Spring 2018 programs is Radiate. You can explore how ideas spark action and inspire change, radiating from the core of your creativity.

We will illuminate the night with outdoor video projections during the Portland Winter Light Festival and showcase artists that shine light on important issues.

For 2018, we’ve also organized our classes into media education tracks, which will allow students to progress from introductory to advanced skills throughout the course of the season.

Read more about education tracks at opensignalpdx.org/tracks

Some things to know about our classes:

Read full course descriptions and register online at opensignalpdx.org/calendar

You can also register by phone at (503) 288-1515 or in person during our public hours of operation.

All classes take place at our facility, unless noted otherwise: Open Signal 2766 NE MLK Jr. Blvd. at Graham Street.

No experience is needed to register for most classes, however, we recommend or require taking prior classes in some cases.

Most classes cap at 12 students, allowing you lots of contact with your instructor and classmates.

Each class certifies you to check out specific equipment or software from our library.

You must complete all sessions of your class to become certified to use equipment from our media library.

Use of the media equipment library is strictly for the purpose of creating content for our community TV channels, not for commercial use.

Read full course descriptions, equipment certification information and instructor bios at opensignalpdx.org/calendar

Create experimental video art by bending and glitching content through analog video processors.
3/28, 4/4 and 4/11, 6-9pm

### Music and Video Programming with MAX/MSP/Jitter
**$110**
This class teaches the basics of interactive video production, including its role in coding and multimedia video installations.
2/8, 2/13 and 2/15, 6-9pm

### Video Installation
**$110**
Learn how larger-than-life videos can create dynamic audience experiences through innovative use of video projection.
3/13, 3/20 and 3/27, 6-9pm

### Beginner’s Motion Graphics in After Effects
**$110**
Held at Wacom Experience Center, 1455 NW Irving St, Portland
Want to create unique animated elements and credit sequences for your videos? Apply the power of Adobe After Effects to your projects!
2/13, 2/14 and 2/15, 6-8:30pm

### Animating the Subconscious
**$75**
Reconnect with your imagination in this two-session workshop! Join a group, create an animation and learn about improvised storytelling.
1/24 and 1/31, 6-9pm

### Meet Jo, Community Producer

“Open Signal has given me opportunities to learn and experience media in ways I had not thought about before.”

---

JO THORPE-BUCKMASTER

Through our classes, Jo quickly picked up skills, learning how to use our camera switchers, studio cameras and lighting setups. Jo has also volunteered with Open Signal, assisting Media Education Manager KatMeow Garcia by photographing and lending a helping hand with her summer youth media education classes.

She also worked with our Art & Social Impact Curator, Sarah Turner, on last summer’s TV Takeover, an interactive multi-channel TV broadcast. “I have experience being behind the camera,” Jo said. “And because I was asked genuinely, I even agreed to go in front of the camera. It was a unique experience, where I met many talented artists.”

As a result of her work with Open Signal, Jo was asked by the Creative Music Guild to document their Improvisation Summit at the Disjecta Contemporary Arts Center in June 2017.

“Open Signal has a fervent social network where people collaborate,” Thorpe says. “Its openness and inclusion of everyone, and its connections and involvement in the community make it unique.”

Learn more about becoming an Open Signal producer at opensignalpdx.org/cable-tv/make-a-show
Empower a member of our community to share their voice. The Bob Hedlund Memorial Scholarship Fund allows people with demonstrated need the opportunity to take an Open Signal media class free of charge.

Give to the scholarship fund at opensignalpdx.org/donate. Your money helps low-income Portlanders attend our classes.

Learn about applying for a Bob Hedlund Scholarship at opensignalpdx.org/classes or at (503) 288-1515.

2-D Animation with Toon Boom
$110
Learn the basics of computer-aided 2/D animation in Toon Boom in order to transform your drawings into compelling animations!
2/5, 2/6 and 2/7, 6-9pm

Animating Physics
$110
Give your animations a lifelike sense of movement using specialized stop-motion techniques.
3/5, 3/12 and 3/19, 6-9pm

After Effects: Art in Motion
$110
Held at Wacom Experience Center, 1455 NW Irving St, Portland
Learn how to add animated elements to your work with After Effects and Photoshop.
3/13, 3/14 and 3/15, 6-8:30pm

Intro to 3D Graphics with Blender
$110
Held at Wacom Experience Center, 1455 NW Irving St, Portland
If you’ve ever wanted to enhance a logo, design a home, animate a film or sculpt a creature for 3D printing, this class is for you!

Meet Kalimah, Resident Mediamaker

“Open Signal has allowed me to meet new people and have access to equipment that might otherwise be hard to find in this city.”

Kalimah Abioto is an avid filmmaker, writer and artist whose work explores multiculturality, gender and spirituality among other topics. She is a graduate of Hollins College’s film program.

In November 2016, she joined Open Signal as the first artist-in-residence for our annual outdoor projection art series, Night Lights, delivered in partnership with the Regional Arts & Culture Council. In this role, Kalimah borrowed our equipment, booked time in our production studios and was given a $5,000 stipend to create a new work.

“I was attracted to Open Signal because it provided use of great equipment, access to media education and a community of people making things,” Abioto says. “It provides these things to everyone at a low to zero cost. It is simply about making and sharing content.”

With her stipend, she was able to travel to West Africa to capture footage in Mali’s capital, Bamako for her Night Lights film, Sight. Kalimah worked at Open Signal during the film’s production, bringing in a steady stream of collaborators, from actors to writers to musicians. The final product reflected a true community effort.

Sight was screened at Open Signal in March 2017 to a packed house—and her collaborators joined her for the panel discussion. Kalimah continues to be part of the Open Signal community and is currently working on a piece about Black loggers in Eastern Oregon, part of a multimedia history project of the Portland Jazz Composers Ensemble.

“My favorite thing about Open Signal is having access to equipment and knowing at least one person when I come in,” she says. “It’s like having a support team.”

We’re hosting our first-ever 24-hour telethon fundraiser, showcasing media made by our community live onsite, online and through our cable TV airwaves.
5/19-5/20, Noon-Noon
Timeline of a Transformation

After a series of leadership changes, Open Signal is reviving an important community resource and breaking organizational records.

2015

Under Interim Executive Director Paula Manley, Portland Community Media board and staff conduct a strategic plan, outlining work to rebrand the organization and build a new business model.

Board conducts a national search for a permanent executive director.

2016

January

Justen Harn is hired to become the new executive director of Portland Community Media. As Director of Programs & Community Engagement at Portland’s Hollywood Theatre for nine years, Justen was instrumental in revitalizing the organization.

May

Organization secures partnership with Hollywood Theatre, acquiring four programs, four full-time staff and more than $250,000 in existing grant funding.

Meet Michael, Community Partner

Our students have been able to work with world-class artists, access the latest technology and learn advanced techniques."

Michael Navarro

Michael Navarro is principal at Open School North, an alternative middle school for students who have not been successful in the public school system. 85% of Open School’s students live below the poverty line and 79% qualify for special education services.

Michael has been with Open School for 23 years, serving as counselor, program coordinator and teacher before becoming principal. According to Michael: “It typically is the most privileged students who get the best education. I have stayed at Open School because these students should be getting the best!”

Open Signal staff have worked with Open School North since 2010, when the program was a part of the Hollywood Theatre. With funding from the Mt. Hood Cable Regulatory Commission, they were able to outfit the school with a complete media lab, giving students full access to typically out-of-reach technology.

In 2016, Open Signal absorbed the Hollywood Theatre’s education staff and programs, including the relationship with Open School North.

Major multi-year support from the Studio to Schools initiative of The Oregon Community Foundation has enabled our staff to bring visiting artists to work with students and teachers every day for six weeks each, connecting media arts to classroom curriculum from science to social studies. Artists have included Bibi McGill, lead guitarist of Beyonce’s all-female backing band; and Elijah Hassan, local artist and longtime Open Signal producer. Artists engage students through music recording, 3-D media installations, animation and virtual reality.

“Our partnership with Open Signal has given so many opportunities to our students,” Michael says. With help from Open Signal, “we are able to develop curriculum that is better able to meet students where they are at; work that is more in touch with students’ lives in the YouTube era. Students are able to use the technology to express themselves in ways that are very different from writing or speaking.”

Thank you to the Juan Young Trust for providing additional support to this program for the 2017–18 school year.

Read more about partnerships at OpenSignalPDX.org/partnerships
July

Two leadership hires join staff from Regional Arts & Culture Council.

October

Number of classes doubles from previous term, adding experimental media and career classes to standard production and filmmaking classes. Classes consistently sell out.

New outreach programs include a curriculum-integrated media arts program at Open School North, a middle school for students who have been unsuccessful in the public school system.

December

StreamPDX, a local podcast trailer, sets up shop in the parking lot.

2017

January

New Media Fellowship pilot begins, with seed support from the Regional Arts & Culture Council. This program served six people who identified as queer, POC or female mediamakers in 2017.

February

Lobby renovations complete and building reopens to the public, featuring our first dedicated classroom, retooled editing rooms and an animation workspace. A packed open house (image, left) reintroduces the transformed organization to the community.

April

$90,000 three-year capacity building grant is secured from the James F. and Marion L. Miller Foundation, the largest private grant the organization has ever received. More than $200,000 total was granted from nine Oregon institutions in 2017.

Open Signal invests in government relations staff. Employees, board members and volunteer producers make a strong showing at City of Portland budget hearings, leading the organization to avoid a City budget cut for first time in seven years.

Open Signal Labs launches, an incubator for media productions created by filmmakers of color.

June

Justen Harn presents Open Signal’s revived identity and programming at the Alliance for Community Media—the national coalition of community media centers—to great excitement.

Fiscal year 2017 ends with $442,271 to carry forward into 2018, in addition to cash reserves.

Open Signal triples engagement over the previous fiscal year.

August

Block party organized in partnership with Graham Street neighbors becomes the largest event the organization has ever held, with more than 1,000 attendees.

September

Future Forum launches, a 10-month intensive artist training program and an affordable alternative to a higher education.
2017 by the Numbers
July 2016 through June 2017

Historic Growth

Between July 2016 and June 2017, Open Signal experienced dramatic growth in nearly every department.

We saw a 349% growth in equipment certifications we issued in fiscal year 2017 over the previous year.

Students become certified to check out equipment from our library when they complete a class.

The number of students who enrolled in classes leaped by 229% in fiscal year 2017.

48% more people checked out our gear in fiscal year 2017.

Studio and equipment reservations increased by 41%.
We more than tripled the total number of people we engaged in fiscal year 2017 through classes, equipment reservations, event attendees and education partners, a 216% growth.

### Community Partnerships

Between July 2016 and June 2017, we engaged the following groups by providing space, equipment, education, production and/or mentorship:

### Cable Programs

We broadcast 5 channels 24 hours a day, with non-commercial, independent content.

Here are some of the programs we aired in 2017:

- Democracy Now! With Amy Goodman
- 32nd Annual Tribute to Rev. Dr. Martin Luther King
- My Iran
- Road to Recovery
- Muslim Women in Male America
- City Club Friday Forums
- Mass Awareness Project
- Is Multnomah County’s Criminal Justice System JUST?
- Flying Focus
- Video Bus
- El Chamuco
- Multnomah County Commission Meetings
- TriMet Board Meetings
- Portland City Council Sessions and Work Sessions
Thanks to our fiscal year 2017 funders
The City of Portland, Mt. Hood Cable Regulatory Commission, Hollywood Theatre, James F. and Marion L. Miller Foundation, Keeping the Arts, Regional Arts & Culture Council and Columbia Bank

In-kind sponsors
Sizzle Pie, Lagunitas Brewing Company, 2 Towns Ciderhouse, Guayaki Yerba Mate, Ninkasi Brewing Company, TwentySix Cafe, Laughing Planet, Voodoo Doughnut, Artist and Craftsman Supply, Bob’s Red Mill, Paracosm LLC

Diversifying funding is a major priority for our organization in 2017-18, with a focus on increasing earned income, institutional grants and donations from individuals.

As of November 2017, we have secured additional support from The Oregon Community Foundation, Oregon Cultural Trust, Oregon Arts Commission, Juan Young Trust and Advanced Broadcast Solutions for fiscal year 2018.
